Biologie Cellulaire

AN INTERNATIONAL JOURNAL OF CELLULAR BIOLOGY

UNDER THE AUSPICES OF THE EUROPEAN CELL BIOLOGY ORGANIZATION

PUBLIÉ PAR LA SOCIÉTÉ FRANÇAISE DE MICROSCOPIE ÉLECTRONIQUE, AVEC LE CONCOURS DU CENTRE NATIONAL DE LA RECHERCHE SCIENTIFIQUE ET DE L'INSTITUT NATIONAL DE LA SANTÉ ET DE LA RECHERCHE MÉDICALE

Numéro 1, janvier 1980

EDITORIAL IX
ANNOUNCEMENT XII
ÉDITORIAL XIII
ANNONCE XVI

MÉMOIRES ORIGINAUX

HERNANDEZ-VERDUN D., BOURGEOIS C.A. and BOUTEILLE M. Simultaneous nucleologenesis in daughter cells during the late telophase .. 1

SCALI V., PELLICCIARI C., MONTANELLI E. and BERNOCCHI G. Nuclear classes and Feulgen-DNA contents of midgut epithelial cells in a phasmid (Insecta Cheleuroptera) 5

HENEEN W.K. and CZAJKOWSKI J. Scanning electron microscopy of the intact mitotic apparatus 13

CACHON J. and CACHON M. Polymorphism of tubulin reassembly: I. Different aspects of allotropic transformations induced by low temperature 23

Heart Cells in Culture: Methods and Applications

Edited by
Marie-Claude AUCLAIR and Marianne FREYSS-BEGUIN

FOREWORD by Marie-Claude AUCLAIR and Marianne FREYSS-BEGUIN .. 95

List of contributors 96

CHAPTER I: *Preparation and cultivation techniques.*

Use of cell cultures as a tool to elucidate physiological, pharmacological and biochemical membrane properties of the embryonic heart.
RENAUD J.F. 97

Preparation of cultured newborn Rat heart cells for pharmacological studies.
AUCLAIR M.C., MICHELI L. and MEIER M. 105

Separate cultures of myoblasts and fibroblasts derived from post-natal Rat hearts.
FREYSS-BEGUIN M. and VAN BRUSSEL E. 111

Separation of muscle and non muscle cells from adult Rat myocardium.
AUMONT M.C., SWYNGHEDAUW B., NAG A.C., CUTILLETTA A.F. and ZAK R. 119

The control of newborn Rat heart cells in culture.
FRELIN C. 121

CHAPTER II: *Special applications of cell culture methods.*

1 - *Contractile and electrophysiological activity studies.*

Electro-optical technique for recording contractile activity of cultured heart cells.
AUCLAIR M.C. and VERNIMMEN C. 125

Simultaneous record of mechanical and electrical activities of Rat heart cells in culture.
ATHIAS P., GROZ B., SURVILLE J.M. and KLEPPING J. 131

Electrophysiological properties of eleven day-old Chick embryonic heart cells cultured in presence of dimethyl-sulfoxide.
BERNARD P., MORET J.M., COURAUD F. and GHIRINGHELLI O. .. 137

Transmembrane potential recordings in monolayers of newborn Rat heart cells.
VERNIMMEN C. and AUCLAIR M.C. 143

Ultrastructure and electrical activity of newborn Rat heart reaggregates.
JOURDON P. 149

2 - *Metabolic studies.*

Enzymatic activity in heart cell cultures for pharmacological assay.
CHOISY H., CHOISY C., MILLART H. and LEGRIS H. 155

Gas chromatographic analysis of non esterified fatty acids in cultured cardiac cells.
VAN BRUSSEL E. and FREYSS-BEGUIN M. 161

Evaluation of the redox state and energy level in cultured Rat heart cells.
GRIFFATON G., FREYSS-BEGUIN M., VAN BRUSSEL E. and LOWY R. 167

Some aspects of energy metabolism in newborn Rat heart cell cultures.
FRELIN C. 173

CHAPTER III: *Application of miscellaneous methods to heart cell cultures.*

Neurotixin-induced modifications of sodium and calcium uptakes by Chick embryo heart cells.
COURAUD F. and GHIRINGHELLI O. 177

Determination of the ionic basis of the spontaneous activity of cultured Rat heart cells using microinjection technique.
ATHIAS P., GROZ B. and KLEPPING J. 183

Effect of hyperpolarizing currents on transmembrane potentials in newborn Rat heart reaggregates.
JOURDON P. 189

Effects of microirradiation of heart cells in culture at the mitochondrial level.
SALET C., MORENO G. and LAMPIDIS T.J. 195

SOME CONCLUDING REMARKS by Marianne FREYSS-BEGUIN, Alain FREMINET and Marie-Claude AUCLAIR 199
